EURO
PM2019
CONGRESS & EXHIBITION

Welcome to the Euro PM2019 Congress & Exhibition

The Euro PM2019 Congress and Exhibition is the foremost event for the international powder metallurgy and related sectors and provides the focal point for industry personnel, researchers, and suppliers to meet, network and develop their business.

Euro PM2019 Congress features...

© Andrew McLeish 2018

300
Technical Presentations

11
Special Interest Seminars

5000m²
Supply Chain Exhibition

Covering all these sectors -

Additive Manufacturing	Functional Materials	Hard Materials and Diamond Tools	Hot Isostatic Pressing	Metal Injection Moulding	New Materials, Processes and Applications	Press and Sinter
------------------------	----------------------	----------------------------------	------------------------	--------------------------	---	------------------

Top 6 Reasons to attend

Hear from industry experts access over 300 presentations, case studies and meetings through 7 parallel sessions.

Keep up to date with new innovations and technologies and see how the PM Process can benefit your current/future applications.

Source all your product needs under one roof - visit over 100+ exhibitors with solutions in areas including R&D, design, test, production, manufacturing, inspection, measurement, materials and technology.

Grow your network, by meeting partners from across the entire PM supply chain

Discover what Industry 4.0 means for you and how digitalisation is changing the industry.

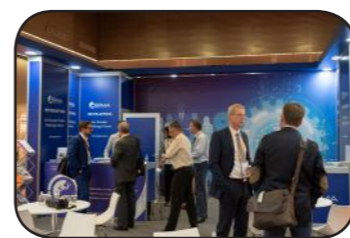

Join the new Campfire Sessions to discuss pertinent issues and learn from industry luminaries on a range of industry related topics.

Euro PM2019 Exhibition Area

Located at the heart of the event, the Euro PM2019 Exhibition, will be the ideal location for positive and profitable networking interactions.

The place for the Powder Metallurgy Industry to meet in 2019!

FOR BEGINNERS

AN INTRODUCTORY LECTURE

**FREE TO
ATTEND**

This short lecture by Professor José Manuel Torralba (Universidad Carlos III de Madrid, Spain) will be held on Tuesday 15 October 2019 at Euro PM2019 Congress & Exhibition in Maastricht. It will cover important key topics in Powder Metallurgy. PM For Beginners aims to give people with no PM background a good base for the understanding of the many materials, processes and applications PM can offer today. This lecture will focus on:

1. What is powder metallurgy?
2. PM fields of applications
3. Advantages of PM
4. Historical background
5. The PM process
6. Final products properties
7. PM against alternative processes
8. How to improve properties in PM materials (today's hot topics)

To register your interest for this free lecture, please select the box on the [Euro PM2019 registration form](#)
